ATLANTA, GA., September 5.—The question whether or not Atlanta shall establish quarantine against yellow fever infected points was brought up again to day, after a rest of several days. At a meeting of the State Board of Health the question was carefully considered, and as a result formal notices were sent

to the Mayor and the city health officers, as representatives of the City Board of Health, notifying them that unless the local board shall establish strict quarantine against all infected points within the next twenty-four hours, the State Board will establish such quarantine and will charge the expense to the city. The local board decided last Tuesday not to quarantine. The authority of the State Board in the matter has been questioned, and there is a possibility that the local board will resist the mandate of the superior board and test the matter in the courts. The city board will meet /to-morrow morning, when the decision will be made. The outcome will be watched with much interest, as the trend of public sentiment appears to be against breaking the precedents of all previous outside epidemics. cedents of all previous outside epidemics, in none of which has Atlanta barred ref-ugees.

There are often peculiar results arising nomination for the House in the district composed of the countles of Greenesvilla and Sussex, seems to be leading all the

rest in this line at present. Gion, J. E. Person, of Sussex, the incumbent, was a candidate for renomination in the recent primary, and he was opposed by Mr. J. C. Field, of Greenesville. The face of the returns show that Person carried Sussex by 67, and that Field carried Greensville by 66 ma-Field carried Greensville by 66 majority, giving the nomination to Person by one vote. This, in itself, is not especially remarkable but Mr. Field claims he had an agreement with Mr. Person by which the two candidates were to vote for each other. Mr. Person is understood to admit that he voted for himself, and to say that he does not recall. self, and to say that he does not recall any agreement with his competitor. Mr. Field says he voted for Mr. Person, and Fleid says he voted for Mr. Person, and and Mr. Person voted for Mr. Fleid, it will be seen that Mr. Fleid would have had the coveted majority of one. THE OPTIMIST.
The summer days will soon be gone;
The autumn breezes soon will blow;
But every day that fades away
Must bring us nearer to next May,
With all its promises, you know.
